

## New support to help you reach your next PCP Milestone

Does your municipality need help reducing GHG emissions and reaching its next climate change Milestone? FCM has assembled environmental experts in five regions across Canada to provide support and training assistance to member municipalities of the FCM-ICLEI Partners for Climate Protection (PCP) program.

Our regional climate advisors across the country provide PCP members with one-on-one advice as well as training and knowledge-sharing activities tailored specifically to their region. Contact your local advisor for assistance in reaching your municipality's next climate change goal, whether it's setting GHG reduction targets, developing and implementing local action plans, or completing documentation for the PCP program.

Once connected, you'll also have access to workshops, webinars, networking meetings and information on funding opportunities and local resources. You'll benefit from our advisors' in-depth knowledge of concerns facing municipalities in your province or territory. You can also expect to learn from the experiences of nearby municipalities to help your community address the challenges you face in your region.

[Learn more](#) and contact the advisor in your area to find out how they can help you reach your goals and successfully progress through the PCP Milestones.

*Funding for the regional climate advisor initiative is delivered by FCM's [Municipalities for Climate Innovation Program](#) and funded by the Government of Canada.*
