

Our Mission: *To support local governments and communities in accelerating climate action and energy security in their own operations and across their communities.*

The Community Energy Association delivers value to our members by building capacity and accelerating climate action with local governments through:

CAPACITY BUILDING...Presentations, workshops, conferences, freely downloadable research and guides. Members also get exclusive access to insights through members-only webinars reviewing recent activity and emerging insights.

NETWORKING...Association meetings provide members with opportunities to network and stay current with actions of others.

RECOGNITION...A formal annual awards program recognizes leading local governments during the UBCM Annual General Meeting (Energy & Climate Action Awards). Members are recognized in all CEA presentations (typically 30-40 per year).

PROJECTS...Grant-funded and fee for service projects to develop and/or implement plans to reduce energy and emissions.

As an **Energetic Supporter** of the Community Energy Association you also receive:

- First opportunity to sponsor CEA publications, conferences, webinars, and research
- Discounts for and input into conferences and workshops organized by CEA
- 10% discount on CEA Advisory Services fees
- 10% discount on CEA delivered training, workshops, and conferences

Energetic Supporter – Annual Membership Fee: \$5,000

Member Commitments

Members participate in Community Energy Association to contribute to common goal of accelerating climate and energy action with local governments. Members contribute constructively to Community Energy Association meetings and identify opportunities for collaboration with Community Energy Association and other members. Members promote their membership in Community Energy Association (such as in presentations).
