

Receive a *Certificate in Community Energy Management* through CEA's On-line Program

Register for the *Certificate in Community Energy Management* program and get almost **two classes for free** – a 30% discount. This program has been created specifically for:

- Municipal and regional elected officials and staff addressing infrastructure, finance, planning, utilities and facilities management
- Developers, utilities, and private sector professionals who provide services to municipal and regional governments

Requirements:

The certificate program consists of six courses, delivered in two month intervals over the course of 2015. The first course will become available on January 1, 2015. Each course will deliver 30 learning hours; a commitment of about 4 hours per week.

<p>Energy & Emissions Planning (CEM 101)</p> <p>January 1 to February 28</p>	<p>Community-Based Renewable Energy (CEM 102)</p> <p>March 2 – April 30</p>	<p>Green Energy & Local Economic Development (CEM 103)</p> <p>May 1 – June 30</p>
<p>Financing & Governance for Green Energy Systems (CEM 104)</p> <p>July 1 – August 31</p>	<p>Reducing Energy Use in New & Existing Building (CEM 105)</p> <p>September 1 – October 30</p>	<p>Low Carbon Transportation (CEM 106)</p> <p>November 2 – December 31</p>

Course requirements includes: an interactive webinar (adjusted for time zones), on-line learning, guided independent reading and video review, peer interaction and periodic quizzes/examinations.

Value beyond the certificate: Invitation to participate in a national community-energy-management community-of-practice.
